

# Application Request Form

This request form is for the approval from the City of Apache Junction to request a new project within the city limits. The listed projects are on the City of Apache Junctions website at [ajcity.net](http://ajcity.net) under the [Strong-Sustainable-Community-Initiative](#) . When all answers are filled, please email or turn in person application to Heather Patel at [hpatel@ajcity.net](mailto:hpatel@ajcity.net).

1. What project do you want to take part of to help the neighborhood?

- |                          |                          |                         |                          |
|--------------------------|--------------------------|-------------------------|--------------------------|
| Adopt a Street or Median | <input type="checkbox"/> | Make a Seat             | <input type="checkbox"/> |
| Create a Trail           | <input type="checkbox"/> | Little Library          | <input type="checkbox"/> |
| Adopt a Tree             | <input type="checkbox"/> | Neighborhood Wall Mural | <input type="checkbox"/> |
| Paint an Intersection    | <input type="checkbox"/> |                         |                          |

2. Where would you place your project at or near? (Outside house, near business, by a street, public right of way, etc.) Please give address and exact location.

3. What does your project idea look like? This applies for Make a Seat, Paint an Intersection, and Neighborhood Wall Mural?

- Describe in detail what your project looks like (color, size, picture, length, features, etc.) Attach design of project idea below.

4. Regarding the neighborhood event, what type of event would you like to have? Describe in detail.

5. Please provide a timeline of the project. Begin with the start date of completing your project, the completion date, and when you would like to install the project.

6. Who should we contact if we have questions regarding the project? Please provide first and last name, followed by a phone number or email address.

7. Additional comments or concerns?
